K5 Smart MultiControl V 9.0

June 2021

New functions

- **Certified Engraving**
  From this version on, the K5 Smart supports Certified Engraving. Certified Engraving provides automated quality assurance for cylinder engraving. Certified Engraving includes measurement procedures that measure and record critical parameters of the cylinder production directly on the HelioKlischograph:
  - Automatic detection of cylinder slippage
  - Automatic measurement of gray scales
  - Certificate with all information about the engraving

  More new functions:
  - Monitoring stylus angle measuring interval
  - Hell ImageViewer
  - CheckDesigner
  - other

Software compatibility

HelioDisk V 7.2
HelioCom V 10.0
