

## HQH Packaging V 7.0

June 2017

### New functionality

**HQH***pro* 

- **HQH Pro**  
This version is a major release of HQH as it contains the new HQH Pro option which is sold separately. HQH Pro is based on a new concept, which requires high resolution data, which have been calculated without oversampling. HQH Pro results in a higher quality engraving of fine text and graphics. What is more HQH Pro can be used for high resolution processes like XtremeEngraving and Cellaxy as well.
- **User Interface**  
The user interface has been revised.
- **PViewer 6.1**  
The new PViewer 6.1 is bundled with HQH 7.0. this includes i. a. new display possibilities, including the option to display jobs with various resolutions.

### Software compatibility

Windows 7.0 (SP3); Windows 10  
HelioFormproof 6.0; HelioCom V 10.0; HelioDisk V 6.0
