## HQH Packaging V 8.0

### New functions

- **This version requires new code burning to the Hasp dongle. Usage of monthly code has been removed!**
- **32 und 64 Bit Unterstützung**  
Diese Version kommt als 32 und 64-Bit Windows Anwendung.
- **Simplified User Interface**  
The user interface was significantly simplified and is more consistent with the HelioDisk setting.
- **HQH Pro**  
HQH Pro is an option which should be ordered separately. It allows performing the HQH process on high-resolution Tiff data for further quality enhancement, including support for XtremeEngraving and Cellaxy.
- **View**  
The new PViewer 8.0 with enhanced viewing and operations capabilities is included.

### Software compatibility
