

HelioFormproof Packaging V 8.0

January 2018

New functions

- **This version requires new code burning to the Hasp dongle. Usage of monthly code has been removed!**
- **32 and 64 bit version**
This version comes as 32 and 64-bit Windows application.
- **Enhanced and Updated HP DesignJet Printers Support**
This version supports the latest HP DesignJet printers through an updated HP 4.x library: printers like T930, T795, T7200 as well as the new Z-series printers are now supported and the driving of all printers has been improved.
- **Color management**
The color management has been revised.
- **Enhanced PDF Output for high-quality proofing**
The PDF output option has been enhanced and it is now possible to save the job as a PDF with all separations data and not just as a CMYK equivalent.
- **View**
The new PViewer 8.0 with enhanced viewing and operations capabilities is included.
