New Features

- **Tables**
Print function for gradations and ink transfer tables.
- **Extended default setting**
New default settings for:
 - Engraving mode Circle / Helix
 - Mirroring Y/N
- **Testcut data**
A complete setting for a color can be assigned to a different color by simply copy and paste. The value-range for the stylus angle has been extended to 80 ... 140.
- **Printing**
Printing layout as well as some parameters have been modified, see above.
- **Online-help**
Access to PDF online-help at program level.
- **Fastforward data**
Fastforward data may be exported to a .SVS text file. (Important to control engraving machines of other vendors.)
