

HelioDisk V 6.0

August 2012

New functions

- **Cylinder certificate**
HelioDisk 6 generates customer specific cylinder certificates that meet in-house requirements for quality assurance as well as print shop requirements for input checks.
- **Remote-controlled printouts**
The HelioDisk job protocol, containing all production parameter, as well as the customer specific cylinder certificate (see above) can be triggered remote-controlled.
- **Wallwidth visualization**
As of today testcut images are stored in the jobticket. Starting from HelioDisk 6 images of a wallwidth visualization can be stored as well. Therefore the Helio has to engrave a small fulltone area.
- **Additional Xtreme screens**
Starting from this version additional Xtreme screens can be chosen: Ultra fine write resolutions up to 540 l/cm, coarse screens down to 14 l/cm.
- **Further new features and extensions**
See „Release Notes“ file.
