

K500 Control2 V 4.2

March 2015

New functions

- **Testcut tolerances**
Testcut tolerances can be controlled via job-ticket (requires HelioDisk 6.2).
- **XtremeEngraving**
Also in helical mode XtremeEngraving performs now perfect seamless engraving.
- **Runout error**
The runout error is displayed in the status bar and stored in the job-ticket.
- **Engraving head maintenance**
The date of the last engraving head maintenance can be displayed in the stylus lifetime dialogue box.
- **After engraving: Turn cylinder GBS to top position**
Before unloading a cylinder the GBS will be turned to top position as a standard.
- **Many other new features / bug fixing**
Many other new features have been implemented. Several bugs have been fixed. See „Release_Notes“ file.

Software compatibility

HelioDisk V 6.2
HelioCom V 10.0
